Example:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	**School Admissions Officer**	Register new students and assign unique identification numbers.	The process is manual, leading to duplicate records and lost paperwork.	There is no centralized database or automated numbering system in place.	**Frustrated** and overwhelmed by administrative errors.
PS-2	**Academic Coordinator**	Track and calculate the total percentage of student marks across multiple subjects.	It takes a long time to manually calculate totals for every student.	The legacy system requires manual entry into spreadsheets without automated logic.	**Stressed** due to the high risk of calculation errors during report generation.
