Maximum Marks	2 Marks

Problem – Solution

Purpose:

The goal of this phase is to ensure that the features developed in ServiceNow (Automated IDs, Table Inheritance, and Progress Trackers) actually solve the "frequent annoyances" identified during the ideation phase. By aligning the solution with existing behavioral patterns of school administrators, we ensure high adoption and trust.

Template:

1. CUSTOMER SEGMENT (CS)	**2. JOBS-TO-BE-DONE / PROBLEMS**	**3. TRIGGERS (TR)**	**4. EMOTIONS (EM)**
School Administrators, Admissions Officers, and Academic Coordinators responsible for student data.	**Problem:** Manual ID tracking and calculation errors. **Root Cause:** Fragmented data in legacy registers/Excel.	High-volume enrollment periods and end-of-term report card deadlines.	**Before:** Stressed and anxious about data accuracy. **After:** Relieved and empowered by automation.
5. AVAILABLE SOLUTIONS (AS)	6. CUSTOMER CONSTRAINTS (CC)	7. CHANNELS OF BEHAVIOUR (CH)	8. YOUR SOLUTION (SL)
Physical paper files, stand-alone spreadsheets, and generic (non-custom) office software.	Limited IT budget, need for zero-coding interface, and limited time for staff training.	Desktop browser access during school office hours; face-to-face parent interactions.	**ServiceNow Educational App:** Auto-generated SAL-IDs, Table Inheritance, and Auto-Calculated Grades.
