Project Design Phase-II
Solution Requirements (Functional & Non-functional)

Date	2nd February 2026
Team ID	LTVIP2026TMIDS69073
Project Name	educational organisation using servicenow
Maximum Marks	4 Marks

Functional Requirements:

Following are the functional requirements of the proposed solution.

FR No.	Functional Requirement (Epic)	Sub Requirement (Story / Sub-Task)
FR-1	**Master Data Management**	• Creation of 'Salesforce' Parent Table
		• Implementation of Extensible Table Architecture
FR-2	**Student Onboarding**	• Admission Table extension from Salesforce
		• Automated Admin ID generation (SAL-XXXX)
FR-3	**Academic Record Keeping**	• Student Progress Table creation
		• Subject-wise marks entry (English, Maths, Science, etc.)
FR-4	**Automated Calculation**	• Logic to calculate 'Total Marks'
		• Logic to calculate 'Percentage' automatically
FR-5	**Workflow Visualization**	• Implementation of Admission Process Flow (Chevrons)
		• Status-based record state management

Non-functional Requirements:

Following are the non-functional requirements of the proposed solution.

FR No.	Non-Functional Requirement	Description
NFR-1	Usability	The interface uses ServiceNow Form Design to group fields into logical sections, reducing data entry time for staff.
NFR-2	Security	Access is controlled via ServiceNow Roles and ACLs; Update Sets ensure secure migration of configurations.
NFR-3	Reliability	Table inheritance ensures data integrity; if a master record is updated, child records (Admission/Progress) remain synced.
NFR-4	Performance	Automated calculations and number generation are optimized to execute in under 1 second upon record submission.
NFR-5	Availability	The application is hosted on the ServiceNow Cloud Platform, ensuring 99.9% uptime for the educational organization.
NFR-6	Scalability	The extensible table structure allows for future modules (like Library or Hostel Management) to be added without re-designing the core.
